2. Web Development (**Front-end**, Back-end, Full-stack)
3. AI & Machine **Learning** Solutions
4. Cybersecurity Services (**Audits**, **Penetration Testing**, Secure Architecture)
5. Internet of Things (**IoT**) (Smart devices, embedded systems)
6. UI/UX Design **And** Graphic Designing

APP DEVELOPMENT

SAVSPLIT

App Description:

A smart dual-mode financial app designed for everyday users and small business owners. The Personal Account helps users split bills, track expenses, and manage shared payments with ease—just like Splitwise. The Business Account empowers small businesses to record sales, manage inventory, and handle finances—just like QuickBooks. Simple, efficient, and tailored for both personal and professional use in one powerful platform.

WEB DEVELOPMENT

The screenshot shows the Zetasoft website. At the top is a navigation bar with links: HOME, ABOUT US, OUR SERVICES, OUR PROJECTS, OUR PRODUCTS, BLOG, CONTACT US, and a prominent 'SCHEDULE STRATEGY CALL' button. Below the navigation is a hero section with a background image of a modern office. It features a grid of service categories: Generative AI, Devops Solutions, Custom Software Development, Mobile Applications, ERP Development, CRMs Development, Web Development, and Digital Marketing. The main headline reads 'Inspiring Tech Needs for Your Business', followed by the text 'Access 200+ Passionate and Experienced Experts with Skills in 100+ Technologies, in Your Timezone.' and two buttons: 'Schedule Free Strategy Call' and 'See Our Work'. A row of client logos follows, including icici, ER2, GREENS, telenor, onic, PTA, and un. The lower section is divided into two columns. The left column is titled 'We Utilize the Power of Modern Technology to Deliver Tailored IT Solutions on Time and Within Your Budget.' and includes a 'Zero Risk Guarantee | Delivered on Time, Every Time...' section. The right column is titled '\$20/hr' and includes a 'Contact Us' button. Both columns list several benefits with icons: 'Speed Without Compromise', 'Tech That Plays Nice', 'Code That's Always Awake', 'Stress-Free Software Outsourcing', 'Instant Team Upgrade', and 'Your Dedicated Tech A-Team'.

We Utilize the Power of Modern Technology to Deliver Tailored IT Solutions on Time and Within Your Budget.

At Zetasoft Solutions, We're not just Another IT Agency — We're your Growth Partners. From Day One, We've Been All About Solving Real Business Problems with Smart, Scalable Tech. No Fluff, Just Results you can Measure.

- Your Dedicated Tech A-Team**
Get a full-time Zetasoft crew focused 100% on your goals. Faster delivery, fewer roadblocks.

Zetasoft

Zetasoft Solutions is a Pakistan-based digital agency headquartered in Islamabad, focused on delivering custom software development, mobile and web app solutions, ERP/CRM platforms, AI/ML integration, and DevOps consulting. Their website highlights a full-stack approach—design, development, testing, deployment, and ongoing support—using modern tools like Java, Python, React, .NET, and cloud platforms such as AWS and Azure . A notable projects section showcases client case studies, especially AI-powered SaaS platforms and scalable business tools that illustrate their impact on growth and efficiency. The products page lists proprietary tools, including the ZetaWallet Manual Payment Plugin and other business-focused software aimed at optimizing workflows . Additional sections like their blog offer insights into software development trends, AI innovations, digital marketing, and best practices, while contact and privacy pages provide company background, team, and data protection commitments

AI/ML

SEIZURE SENSE

DESCRIPTION :

An AI/ML-based system that analyzes brain signals (EEG data) to predict epileptic seizures in advance. It alerts the patient before an attack, allowing them to move to a safe environment and reduce the risk of injury.

EMAIL BOMBER

DESCRIPTION :

Email Bomber is a Python-based tool designed for sending a high volume of emails to a target inbox for testing or awareness purposes. It features both Gmail and SMTP support, with customizable message content and loop count. Built with a simple CLI interface for ease of use and automation. Educationally focused to demonstrate the importance of rate-limiting and email security. Use responsibly for ethical testing and learning only

UI/UX DESIGNING

REDESIGNED BISEP

REDESIGNED PESHAWAR BOARD WEBSITE

Distributed the cognitive overload evenly throughout all the pages increasing the understandability of the users. kept the ui simple for smooth navigation throughout the site
